**TO WHOM IT MAY CONCERN**

Our Ref.: 193-6.2/56121-V

**GENERAL CONDITIONS FOR ACCEPTANCE OF SOURCES MADE BY FSUE MAYAK PA**

FSUE MAYAK PA accepts the return, at the end of their useful life, of sealed sources manufactured by FSUE MAYAK PA after January 1992. Sources may be accepted for recycling or disposal subject to the commercial terms and regulatory conditions prevailing at the time of return and also subject to the following conditions:

1. There is clear evidence that sources have been manufactured by FSUE MAYAK PA. This may be established by the organisation seeking return providing details of the sources (serial number and design type) to enable MAYAK to establish eligibility or submission of the original Quality Certificate issued by FSUE MAYAK PA.
2. The sources must remain in unchanged form, and must not be damaged or modified in any way. Where sources have been over-encapsulated after original supply the decision about possible acceptance of such sources can be taken by FSUE MAYAK PA at its own discretion. The organisation proposing to return over-encapsulated sources shall seek prior approval for the return and shall support their request with documentary evidence of the over-encapsulation and a signed affidavit attesting that the original sources remain intact and unmodified inside the over-encapsulation.
3. The organisation returning sources shall ensure that the sources in original form or over-encapsulated (if agreed for acceptance by FSUE MAYAK PA) are appropriately licensed for transport back to Russia.
4. Where a recommended or designated working life of the sources is indicated on the original FSUE MAYAK PA Quality Certificate then, unless otherwise agreed in writing, sources can only be accepted prior to expiry of recommended or designated working life.

5. A leakage/contamination test certificate issued within the previous 6 months and in accordance with the requirements of ISO9978 must be provided.
6. The organisation returning sources is liable for all costs associated with their conditioning, transportation and import/export.
7. The organisation returning sources is responsible for compliance with the procedures for return arrangements defined by FSUE MAYAK PA or its appointed agent at the time of the source return.

It is forbidden to ship sources to FSUE MAYAK PA without written permission given by FSUE MAYAK PA or its appointed agent in advance of any shipment being made.

On request of an organisation purchasing new sources from FSUE MAYAK PA a written commitment (letter) for future acceptance of sources stating their types and serial numbers is issued by FSUE MAYAK PA at the time of despatch of these sources.

Sergey N. Kirillov  
Deputy Director General  
for Civil Production  
FSUE "Mayak" PA
